Arquitetura de Computadores 2 – Exercício Prático 02

Samuel Fragoso - 902665

PARTE 1

INSTRUÇÃO REALIZADA	BINÁRIO (A,B,Op.code)	Valor em Hexa (0x....)	Resultado em binário
AND(A,B)	0010 0001 00	(0000 1000 0100) = 0x084	0000
OR(A,B)	0010 0011 01	0x08D	0011
SOMA(A,B)	0010 0011 11	0x08F	0101
NOT(A)	1100 0011 10	0x30E	0011
AND(B,A)	1100 1101 00	0x334	1100
